VACANCY ANNOUNCEMENT

SENIOR WATER RESOURCE CONTROL ENGINEER

**LOCATION: CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL BOARD,
11020 SUN CENTER DRIVE #200, RANCHO CORDOVA, CA 95670-6114**

The Central Valley Regional Board is searching for an individual to head one of their Underground Storage Tank (UST) Enforcement Units in the Sacramento Office. This is a full-time permanent position.

SENIOR WATER RESOURCE CONTROL ENGINEER - (RPA 04-150-73)

DUTIES: Under the general direction of a Supervising Water Resource Control Engineer, supervise, organize, direct, and coordinate the technical work of five professional staff within the UST Program. Provide regulatory oversight for the investigation and remediation of contaminants, primarily fuel hydrocarbons, released from leaking USTs. Duties include: direct supervision of engineers, geologists, and scientists, reviewing of all unit work for grammar, technical, legal, and policy content; developing and implementing workplans; updating various databases; and representing the Board at various meetings and public hearings. The functions of the unit include: reviewing technical reports (primarily workplans and monitoring), writing reviews of technical reports, directing responsible parties to investigate and remediate releases from USTs, preparing waste discharge requirements and enforcement actions; conducting field inspections; meeting with Dischargers and their consultants; investigating and responding to complaints; and presenting contested items before the Regional Board. Regional Board regulatory experience, understanding of the UST program and the ability to communicate effectively - both verbally and in writing - are necessary for success in this position

DESIRABLE QUALIFICATIONS: Experience working with multi-disciplinary professional staff (engineers, scientists, attorneys) engaged in environmental regulation, drafting regulatory or enforcement documents (orders, staff reports, issue papers), analyzing comparative options for executive decision and the ability to effectively motivate and direct the work of others to accomplish the unit goals. An understanding of environmental water quality concerns related to petroleum fuel releases. The ability to write and speak effectively, work as a team player, make presentations before public entities, and interact with other state, federal, and local agencies and regulated communities. Should have proficient skills in computer software applications such Word, Excel, Access, and PowerPoint.

WHO MAY APPLY: Applicants must hold a current Senior Water Resource Control Engineer appointment, possess or will possess list, transfer or reinstatement eligibility for Senior Water Resource Control Engineer. In addition, applicants who hold current, Senior Engineering Geologist or Senior Environmental Scientist appointments, possess or will possess list, transfer or reinstatement eligibility to these classifications may also apply.

Permanent, full-time. Final filing date: Open until filled. Interested persons should submit a complete State application form and resume to Brian Newman at the above address. Applications will be screened and the most qualified applicants will be scheduled for interviews. You may call (916) 464-4834 or send an email to bnewman@waterboards.ca.gov for further information about the position.
